<b>Review lecture</b>	
<b>Minimal Total Discomfort; an integrating framework for food intake and selection</b>	13-20
J. Michael Forbes, Institute of Integrative and Comparative Biology, University of Leeds, Leeds LS2 9JT, UK.	
<b>Hormonal control of food intake</b>	21-27
Thomas A. Lutz, Institute of Veterinary Physiology, Vetsuisse Faculty University of Zurich, Winterthurerstrasse 260; and Zurich Center for Integrative Human Physiology, University of Zurich; 8057 Zurich, Switzerland	
<b>Amino acids and nitrogen</b>	
<b>1. Dietary arginine supplementation of primiparous sows during early gestation increases litter size and alters fetal muscle fiber development</b>	28
J. Bérard, J-Y. Deru and G. Bee – Posieux	
<b>2. Optimum threonine : lysine ratio in diets for growing pigs: An evaluation of literature data</b>	29
Britta Blank and A. Susenbeth – Kiel	
<b>3. The impact of dietary Leucine oversupply at marginal levels of Valine on animal performance, blood metabolites, and catabolic key enzymes in weaned pigs</b>	30
M. K. Wiltafsky and F. X. Roth – Freising-Weihenstephan	
<b>4. Chicken studies to improve procedure and database for evaluation of the optimal dietary amino acid ratio</b>	31
Jaqueline Farke, C. Wecke and F. Liebert – Göttingen	
<b>5. Investigations on amino acid supply in diets for young stallions and effects of lysine supplementation on growth and selected blood parameters</b>	32
D. Koslowski and F. Liebert – Göttingen	
<b>6. Influence of maternal low and high protein diets during pregnancy in young sows on glucose metabolism of their offspring</b>	33
Solvig Görs, Iris S. Lang, P. Junghans, U. Hennig, B. Stabenow, F. Schneider, W. Otten, Charlotte Rehfeldt and Cornelia C. Metges – Dummerstorf	
<b>7. High protein diet fed during pregnancy and lactation affects maternal body mass, blood parameters and litter performance in mice</b>	34
Marzena Kucia, Martina Langhammer, Solvig Görs, Elke Albrecht, M. Derno, G. Nürnberg and Cornelia C. Metges – Dummerstorf	
<b>8. Investigations on muscle development (M. extensor digitorum communis) depending on lysine supply in diets for young stallions</b>	35
D. Koslowski, F. Liebert and J. Thielebein – Göttingen/Halle (Saale)	

<b>9.</b>	<b>Preference of broiler chickens for various methionine supply in low protein diets</b> Brigitte R. Paulicks, P. Prechtel, A. Lemme and Barbara M. Böhmer – Freising-Weihenstephan/Hanau	36
<b>10.</b>	<b>Response of Ross 708 to enhanced balanced protein supply fed in subsequent phases</b> O. Akinde and A. Lemme – Hanau	37
<b>11.</b>	<b>Use of the automatised method of Dumas (VARIO MAX CNS®) for routine analysis of crude protein content in feed (concentrates) as well as in samples of ileal chyme of pigs in comparison to the established Kjeldahl method</b> Anne Mößeler, Sonka Zantz, Katja Krause, Simone Möbus, P. Rust and J. Kamphues – Hannover	38

### **Minerals and trace elements**

<b>12.</b>	<b>Effects of zeolite A on rumen fermentation and phosphorus metabolism in dairy cows</b> Hilde Grabherr, M. Spolders, P. Lebzien, L. Hüther, G. Flachowsky and M. Fürll – Braunschweig/Leipzig	39
<b>13.</b>	<b>Effect of various feed iodine supplementations, rapeseed meal in the ration and the iodine species on iodine status and -excretion of dairy cows</b> K. Franke, U. Meyer, H. Wagner, H. O. Hoppen and G. Flachowsky – Braunschweig/Kulmbach/Hannover	40
<b>14.</b>	<b>Influence of roughage/concentrate ratio on the effect of urinary acidifiers in ponies is independent of dietary Ca/P ratio</b> Ellen Kienzle, L. Berchtold and N. Zorn – München	41
<b>15.</b>	<b>Chromium yeast supplementation on postprandial glucose and insulin profiles in insulin-resistant ponys</b> Ingrid Vervuert, Barbara Oßwald and M. Coenen – Leipzig	42
<b>16.</b>	<b>Effects of potassium dependent variation in dietary cation balance on acid base and nitrogen balance in pigs</b> Susann Engelking and M. Coenen – Leipzig	43
<b>17.</b>	<b>Low phosphorus and normal calcium intake results in extremely bowed legs in growing dogs which are reversible by phosphorus repletion</b> Britta Dobenecker and Ellen Kienzle – München	44
<b>18.</b>	<b>Effect of dietary rare earth elements (REE) on growth performance of fattening bulls</b> Annett Schwabe, U. Meyer and G. Flachowsky – Braunschweig	45
<b>19.</b>	<b>Activity of selenium dependent GPx1 and GPx3 in growing male lambs fed different levels of Se</b> J. Fischer, Erika Most and J. Pallauf – Giessen	46
<b>20.</b>	<b>Effects of high dietary iodine supply as iodide or iodate on mRNA expression of marker genes associated to fat metabolism and oxidative stress in abdominal fat tissue of fattening pigs</b> K. Schedle, V. Wagner, Q. Li, T. Ertle and W. Windisch – Wien	47

21. **Investigations on content and distribution of iodine in freshwater fish after supplementation of maximum iodine content in fish feed: a field study** 48  
Sylvia von Rosenberg, Stefanie Daub and W. A. Rambeck – München
22. **Impact of rapeseed cake supplementation and staggered feed iodine concentrations on the iodine content of hen eggs** 49  
Anna S. Röttger, Ingrid Halle, H. Wagner, Inka Niehoff, G. Flachowsky – Braunschweig/Kulmbach
23. **Influence of two different selenium sources on growth of broiler chickens** 50  
Ingrid Halle and H. Schenkel – Braunschweig/Stuttgart-Hohenheim

### **Energetics**

24. **Differences in energy expenditure, physical activity and feeding behaviour between grazing cows and cows fed grass indoors** 51  
Luzia D. Kaufmann, A. Münger, M. Rérat, P. Junghans, Solvig Görs, Cornelia C. Metges, Frigga Dohme – Posieux/Dummerstorf
25. **Metabolic adaptations and hepatic gluconeogenesis in response to chronic intravenous glucose infusions in midlactating dairy cows** 52  
B. Al-Trad, Kerstin Reisberg, T. Wittek, A. Alkaassem, G. Gäbel, M. Fürll and J. R. Aschenbach – Leipzig
26. **Collectively regulated liver enzymes in periparturient and feed restricted dairy cows** 53  
B. Kuhla, D. Albrecht, K. Duske, A.-K. Langhof, H. M. Hammon, S. Kuhla and Cornelia C. Metges – Dummerstorf/Greifswald
27. **Effects of limited concentrate feeding on growth and blood and serum variables in dairy calves** 54  
J. D. Lohakare, H. van de Sand, K. Gerlach, M. Pries, M. Mielenz, H. Sauerwein and K.-H. Südekum – Bonn/Kleve/Münster
28. **Effects of colostrum versus formula feeding on postprandial hepatic glucose metabolism in neonatal calves** 55  
Julia Steinhoff, R. M. Bruckmaier and H. M. Hammon – Dummerstorf/Bern
29. **Milk yield and body condition loss in early lactation in a dairy and a dual purpose cow breed** 56  
Dagmar Schaub, Karen Aulrich and Kerstin Barth – Trenthorst
30. **Intestinal glucose absorption and hepatic glucose metabolism in goat kids fed casein- or soy protein-based milk diets** 57  
Ulrike Schönhusen, Anne Flöter, Julia Steinhoff, S. Kuhla, K. Huber, P. Junghans, H. M. Hammon and Cornelia C. Metges – Dummerstorf/Hannover
31. **Activity of hepatic but not skeletal muscle carnitine palmitoyltransferase enzyme is depressed by intravenous glucose infusions in lactating dairy cows** 58  
B. Al-Trad, Kerstin Reisberg, G. Gäbel, T. Wittek, M. Fürll and J. R. Aschenbach – Leipzig

32. **Endocrine changes and postprandial hepatic glucose metabolism in preterm and term born calves** 59  
 Julia Steinhoff, R. M. Bruckmaier and H. M. Hammon –  
 Dummerstorf/Bern

### Undesired materials

33. **Investigations in order to establish a concept for using dioxin exposed floodplains by beef cattle under food safety aspects** 60  
 Venja Taube, Katrin Gude, Elke Bruns-Weller and J. Kamphues –  
 Hannover/Oldenburg
34. **Secondary metabolites of *A. fumigatus* in grass and maize silages** 61  
 J. Ostertag, J. Bauer, H. Spiekens, W. Richter and K. Meyer – Freising-  
 Weihenstephan/Grub
35. **Bioavailability of the *Fusarium* toxin deoxynivalenol (DON) from contaminated wheat straw and chaff in comparison with its grain** 62  
 D. Rohweder, Hana Valenta, S. Sondermann, M. Schollenberger,  
 W. Drochner and S. Dänicke – Braunschweig/Stuttgart-Hohenheim
36. **Effects of deoxynivalenol (DON) on lipopolysaccharide (LPS) stimulated and unstimulated primary porcine hepatocytes** 63  
 Susanne Döll, J. Schrickx, S. Dänicke and Johanna Fink-Gremmels –  
 Braunschweig/Utrecht
37. **Effects of Deoxynivalenol (DON) and its derivative DON-sulfonate (DONS) on porcine peripheral mononuclear cells (PMNC)** 64  
 S. Dänicke, Tanja Goyarts, Hana Valenta, Marita Beyer and  
 H.-U. Humpf – Braunschweig/Münster
38. **Investigations to minimise dioxin contamination in lamb/mutton production when using exposed river banks by grazing sheep** 65  
 Katrin Gude, Venja Taube, Elke Bruns-Weller and J. Kamphues –  
 Hannover/Oldenburg
39. **Studies on the accumulation of arsenic in animal tissues after long-time arsenic supplementation in ewes** 66  
 Ricarda Krüger, Jeanette Boguhn, J. Breuer and M. Rodehutschord –  
 Halle (Saale)/Stuttgart-Hohenheim
40. **Mycotoxin screening in healthy cows and cows with abomasal displacement** 67  
 A. Alkaassem, S. Dänicke and M. Fürll – Leipzig/Braunschweig

### Digestion

41. **Comparative investigations on food comminution in herbivores – faecal particle size and influence of lactation** 68  
 Eva Schenk, Kerstin Erlinghagen, J. Hummel and K.-H. Südekum – Bonn
42. **Do individual protozoal species differ in their effect on the digestion of sheep?** 69  
 Johanna O. Zeitz, S. L. Amelchanka, T. Michałowski, K. Wereszka,  
 M. Kreuzer and Carla R. Soliva – Zürich/Jablonna

43. **Effect of potassium and insulin on the activity of abomasal smooth muscles in vitro and on the flow rate of digesta in the duodenum of dairy cows** 70  
Gesche Tuerck, Margit Ziegler, J. Rehage, P. Lebzien und Sabine Leonhard-Marek – Hannover/Braunschweig
44. **Validation of a novel technique for the measurement of the chewing activity in horses** 71  
Annette Zeyner, S. Quellmalz, Josefine Dill and O. Lengwenat – Rostock/Leipzig/Osnabrück/Hannover
45. **Investigations on a shred whole acorns (*Quercus pubescens*) based diet on the paroid gland in piglets** 72  
M. G. Cappai, P. Wolf, V. Grosse Liesner, A. Kastner, G. Nieddu, W. Pinna and J. Kamphues – Sassari/Hannover
46. **Investigations on particle sizes in different compartments of the digestive tract of ostriches (*Struthio camelus*)** 73  
Julia Fritz, M. Clauss and Ellen Kienzle – München/Zürich
47. **Effect of the level of concentrate in *Fusarium*-toxin contaminated rations on ruminal fermentation in dairy cows** 74  
B. Hildebrand, Jeanette Boguhn, S. Dänicke, P. Lebzien and M. Rodehutsord – Stuttgart-Hohenheim/Braunschweig
48. **Influence of forage source and feed particle size of rations for ruminants on the abundance of classical ruminal bacterial species *in vitro*** 75  
Maren Witzig, Jeanette Boguhn and M. Rodehutsord – Halle (Saale)/Stuttgart-Hohenheim
49. **Effects of replacing conventional concentrate ingredients by tomato pomace and olive cake on digestibility and milk yield of Awassi (fat-tailed) sheep** 76  
Souheila Abbeddou, S. Rihawi, L. Iñiguez, Barbara Rischkowsky, H. D. Hess and M. Kreuzer – Zürich/Aleppo (Syrien)
50. **Acid-base status in rumen fluid and urine of dairy Holstein cows - a comparative study** 77  
J. Kricziokat, T. Wittek and M. Fürll – Leipzig
51. **Investigations on cast production, energy and nutrient supply as well as protein requirement in birds of prey (eagle owl, common bussard, kestrel falcon)** 78  
Petra Wolf, Meike Lüdtke and J. Kamphues – Hannover

### **Lipids and fatty acids**

52. **Comparison of extruded and raw linseed on their effects on ruminal biohydrogenation of linolenic acid, fibre digestibility and milk fatty acid profile in dairy cows** 79  
Frigga Dohme and G. Bee – Posieux
53. **Whey Protein Emulsion Gel Composite of Soybean and Linseed Oils to increase poly-unsaturated fatty acids in cow' milk** 80  
A. M. van Vuuren, P. G. van Wikselaar, J. W. van Riel, A. Klop and J. A. H. P. Bastiaans – Lelystad/Zwolle

54.	<b>Does a supplementation of conjugated linoleic acids during early lactation affect milk and milk component yields beyond the cessation of supplementation?</b> Katrin Metzger-Petersen, M. Pries, H. van de Sand and K.-H. Südekum – Bonn/Münster/Kleve	81
55.	<b>Short-term effects of fish oil or soybean oil supplementation to a starchy meal on postprandial glucose and insulin responses in healthy horses</b> Ingrid Vervuert, Sara Klein and M. Coenen – Leipzig	82
56.	<b>Lack of influence of n-3 polyunsaturated fatty acids in parturition feed on sow and piglet performance</b> A. Cools, D. Maes, K. Goris, D. Bogaerts and G. P. J. Janssens – Ghent	83
57.	<b>Investigations on the role of peroxisome proliferator-activated receptor (PPAR) <math>\alpha</math> in the metabolic adaptations during lactation</b> K. Eder, Anke Gutgesell, Eileen Schmidt, Corinna Brandsch, Gabriele I. Stangl, F. Hirche and R. Ringseis – Halle (Saale)	84
58.	<b>A dietary conjugated linoleic acid mixture downregulates fatty acid transporters in the mammary gland of lactating rats</b> R. Ringseis, Anke Gutgesell and K. Eder – Halle (Saale)	85
59.	<b>Effects on fatty acid composition of milk fat due to dietary rumen-protected conjugated linoleic acid during early lactation of cows</b> T. Liermann, P. Möckel, G. Jahreis, Angelika-Maria Pfeiffer and F. J. Schwarz – Freising-Weihenstephan/Jena/Berlin	86
60.	<b>Comparison of emulsifying methods for linoleic acid and their influence on <i>in vitro</i> ruminal biohydrogenation and fermentation characteristics</b> Ratchaneewan Khiaosa-Ard, F. Leiber, M. Kreuzer and Carla R. Soliva – Zurich	87
61.	<b>Involvement of TNF<math>\alpha</math> in adipocyte metabolism and the interaction with liver metabolism in dairy cows</b> H. Anette van Dorland, H. Sadri, Isabelle Morel and R.M. Bruckmaier – Bern/Isfahan/Posieux	88
62.	<b>Comparative aspects of mRNA-expression in bovine fat tissue</b> L. Zapfe, L. Locher, N. Klötting, M. Kern, M. Blüher and M. Fürll – Leipzig	89
63.	<b>Enrichment of RAW264.7 macrophages with essential 18-carbon fatty acids affects both oxidative burst and production of immune modulatory cytokines</b> Julia Schumann, B. Walloschke and H. Fuhrmann – Leipzig	90
64.	<b>Selenate and CLA isomers added to a diet modify the fatty acid concentration in the liver and femoral muscles of rats</b> Marian Czauderna, J. Kowalczyk, K. M. Niedźwiedzka, L. Leng and K. Cobanova – Jabłonna/Kosice	91
65.	<b>Selenized yeast and CLA isomers added to a diet modify the fatty acid concentration in the liver and femoral muscles of rats</b> Marian Czauderna, J. Kowalczyk, K. M. Niedźwiedzka, L. Leng and K. Cobanova – Jabłonna/Kosice	92

## Other nutriments, active ingredients and additives

66. **Influence of a probiotic *E. faecium* strain on lactic acid bacteria species in the intestine of piglets** 93  
W. Vahjen, Irina Klär and O. Simon – Berlin
67. **Effect of probiotics and prebiotics on intestinal morphology and mRNA expression of inflammatory marker genes in selected tissue samples of newly weaned piglets** 94  
Christiane Mair, C. Plitzner, M. W. Pfaffl and W. Windisch – Wien/  
Freising-Weihenstephan
68. **Effect of *Enterococcus faecium* on the intestinal immune system of piglets during a challenge infection with *Salmonella Typhimurium* DT104** 95  
Lydia Scharek-Tedin, H. Mafamane, I. Szabó, K. Nöckler, K. Tedin and  
M. F. G. Schmidt – Berlin
69. **Effects of a niacin supplementation to different diets on rumen fermentation, amounts of niacin at the duodenum, and its concentration in blood and milk of dairy cows** 96  
Inka-Donata Niehoff, Wiebke Bigalke, Liane Hüther, S. Dänicke and P.  
Lebzien – Braunschweig
70. **Effect of a folic acid supplementation on ruminal metabolism in dairy cows** 97  
Veronika Ragaller, Liane Hüther, P. Lebzien and G. Flachowsky –  
Braunschweig
71. **Methane reduction effect of simple phenolic acids evaluated by *in vitro* Hohenheim gas production method** 98  
A. Jayanegara, H. P. S. Makkar and K. Becker – Stuttgart-Hohenheim
72. **Investigations on the water intake of growing heifers** 99  
M. Grabow, U. Meyer, Hj. Abel and G. Flachowsky – Braunschweig/  
Göttingen
73. **Evaluation of Lacticin 3147 to reduce *in vitro* ruminal methane production** 100  
A. Jayanegara, H. P. S. Makkar and K. Becker – Stuttgart-Hohenheim
74. **Effect of a pantothenic acid supplementation on ruminal metabolism in dairy cows** 101  
Veronika Ragaller, Liane Hüther, P. Lebzien and G. Flachowsky –  
Braunschweig
75. **Comparison between the *in vivo* and *in vitro* formation of vitamin K<sub>2</sub> by the canine intestinal microbiota** 102  
Susan Kröger, Petra Hellweg, K. Schäfer and J. Zentek – Berlin
76. **Effect of Dietary Nucleotide Supplementation on Gastrointestinal Functions and Ileal Digestibilities of Nutrients in Newly Weaned Piglets** 103  
Nadja Sauer, R. Mosenthin, Meike Eklund, Dagmar Jezierny and Eva  
Bauer – Stuttgart-Hohenheim
77. **Influence of the feed additives digestarom<sup>®</sup> and Bolifor<sup>®</sup> on gut parameters in growing chicken** 104  
C. Wecke, Agata Lecewicz, Angela Sünder and F. Liebert – Göttingen/  
Olsztyn

78.	<b>Effect of mannanoligosaccharides and fructooligosaccharides on bone mineral content and bone resistance of broiler chickens fed diets with high content of dietary fibres</b>	105
	Birgit Prause, Ruth Messikommer and C. Wenk – Zürich	
79.	<b>Bone stability and bone composition in pigs fed low P diets supplemented with benzoic acid and phytase</b>	106
	Kathrin Bühler, Annette Liesegang, B. Bucher and C. Wenk – Zurich	
80.	<b>Immune modulating influence of <i>Echinacea purpurea</i> on lysozyme content of egg white and immune response of cell lines</b>	107
	Barbara M. Böhmer, Kathrin Huber and Brigitte R. Paulicks – Freising-Weihenstephan/Zurich	
81.	<b>Reduction of the prevalence of digestive disorders in the postweaning period of rabbits by a herbal feed additive</b>	108
	J. Zentek, R. Krieg, W. Vahjen, Wageha Awad and Susan Kröger – Berlin/Niederwünsch	
82.	<b>Ammonium-iron-hexa-cyanoferrate in feed for wild boars can reduce caesium contamination</b>	109
	Ellen Kienzle, Katja Meinel, J. Reddemann, P. Morfeld – München/Feldkirchen/Dortmund	

#### **Feed estimation and feed**

83.	<b>Effects of long-term feeding of genetically modified maize (Bt-maize; MON810) to dairy cows on performance and metabolic parameters</b>	110
	Kerstin Steinke, V. Paul, P. Gürtler, W. Preißinger, Steffi Wiedemann, Christiane Albrecht, H. Spiekers, H. H. D. Meyer and F. J. Schwarz – Freising-Weihenstephan/Grub/Bern	
84.	<b>Investigations on the potential transfer of recombinant DNA and Cry1Ab protein from feed into milk, blood, feces and urine of cows fed genetically modified maize</b>	111
	P. Gürtler, V. Paul, Kerstin Steinke, W. Preißinger, Steffi Wiedemann, Christiane Albrecht, H. Spiekers, F.J. Schwarz and H.H.D. Meyer – Freising-Weihenstephan/Grub/Bern	
85.	<b>Transfer of volatiles into the milk of cows fed on silage containing microencapsulated lemon oil</b>	112
	Cornelia Hartl, F. J. Schwarz and P. Schieberle – Garching/Freising-Weihenstephan	
86.	<b>Effect of cattle stocking density on the browsing intensity on individual young tree and shrub species present in a subtropical mountain forest of Southern Bolivia</b>	113
	Svenja Marquardt, S. Beck, A. Marquez, M. Kreuzer, Andrea C. Mayer and H. Alzérreca – Zurich/Tarija/La Paz (Bolivia)	
87.	<b>Effect of 24-hours-grazing versus daytime-grazing on feed intake and growth of sheep in the steppe of Inner Mongolia, China</b>	114
	Katrin Müller, L. Lin, C. Wang, T. Glindemann, Anne Schiborra, P. Schönbach, H. Wan, B. M. Tas, M. Gierus, F. Taube and A. Susenbeth – Kiel	

88.	<b>Ensiling moistly harvested lupine seeds and the influence of conservation on oligosaccharides</b>	115
	Annett Gefrom, Edda Maria Ott and Annette Zeyner – Rostock	
89.	<b>Effects of diets` physical form (mash/pellets; particle sizes) on morphological and histological parameters of the gastrointestinal tract in weaned piglets</b>	116
	Saara Betscher, A. Beineke and J. Kamphues – Hannover	
90.	<b>Egg production and egg composition in budgerigars: A basis for factorial derivation of energy and nutrient requirements during laying period</b>	117
	A.-C. Häbich, A. Irle, S. Theermann, S. Hansen, E. Özeler and J. Kamphues – Hannover	
91.	<b>Effects of hay versus concentrate on urinary energy excretion in horses</b>	118
	Ellen Kienzle, Lisa Berchtold and Annette Zeyner – München/Rostock	
92.	<b>Energy protein metabolism and fertility in three cattle breeds in Tyrol</b>	119
	M Füll, N. Göttler, Ch. Mader, J. Gottschalk and A. Einspanier – Leipzig	
93.	<b>Validation of energy requirements for fattening cattle in Germany based on extensive data from feeding trials</b>	120
	L. Gruber, F. J. Schwarz, U. Meyer, K. Rutzmoser, T. Guggenberger – Irdning/Freising-Weihenstephan/Braunschweig/Poing	
94.	<b>Influence of different amounts of soybean meal on the isoflavone content in dairy cow's milk</b>	121
	M. Hünerberg, U. Meyer, D. R. Kammerer, R. Carle, G. Flachowsky – Braunschweig/Stuttgart-Hohenheim	
95.	<b>Effect of plant species rich in secondary metabolites on milk yield, milk composition and body condition of dairy cows</b>	122
	Tasja Kälber, M. Kreuzer, H.-R. Wettstein and F. Leiber – Zurich	
96.	<b>Ruminal crude protein degradability of different concentrates</b>	123
	A Kilic, A. Metwally, Friederike Zeller, M. Schuster and F. J. Schwarz – Izmir/Freising-Weihenstephan/Grub	
97.	<b>Influence of genotype on chemical composition and ruminal degradability in maize residual plant matter of varying stages of maturity</b>	124
	Friederike Zeller, J. Danier and F. J. Schwarz – Freising-Weihenstephan	
98.	<b>The effect of CO<sub>2</sub> treatment of maize plants during growth on their <i>in situ</i> dry matter degradability</b>	125
	Hongbiao Ding, P. Lebzien, S. Dänicke, G. Flachowsky, R. Manderscheid and U. Meyer – Beijing/Braunschweig	
99.	<b><i>In vitro</i> ruminal fermentation of diets containing whole plant buckwheat</b>	126
	S. L. Amelchanka, M. Kreuzer, Carla R. Soliva and F. Leiber – Zurich	
100.	<b>Forage quality and tannin concentration of a Swiss collection of sainfoin (<i>Onobrychis viciifolia</i>) accessions</b>	127
	B. N. Azuhwi, B. Boller, Melanie Martens, Frigga Dohme, M. Kreuzer and H.D. Hess – Posieux/Thun/Zurich	
101.	<b>Digestibility of diets (consisting of supplementary feed and wheat) in fattening turkeys related to wheat treatment (intact, crushed, ground)</b>	128
	Stefanie Bank, L. Koddebusch and J. Kamphues – Hannover/Garrel	

<b>102.</b>	<b>Effects of litter quality and excreta composition (water, uric acid, ammonia, macromineral excess) on the development and severity of foot pad dermatitis in fattening turkeys</b>	129
	I. M. I. Youssef, A. Beineke and J. Kamphues – Hannover	
<b>103.</b>	<b>Efficiency of buckwheat kernels as feed component in broiler diets</b>	130
	F. Leiber, Ruth Messikommer, Janina S. Meier and C. Wenk – Zurich	
<b>104.</b>	<b>Amino acid digestibility of rapeseed meals in caeectomised laying hens</b>	131
	M. Rezvani, H. Kluth, M. Bulang and M. Rodehutsord – Halle (Saale)/ Stuttgart-Hohenheim	

### **Physiology of transport and epithelial cells**

<b>105.</b>	<b>Functional and morphological adaptation of rumen epithelium in sheep fed hay and concentrate</b>	132
	Judith Kuzinski, R. Zitnan, Christina Warnke-Gurgel, Elke Albrecht, Monika Schweigel – Dummerstorf/Kosice/Rostock	
<b>106.</b>	<b>New insights for the contribution of ruminal Ca absorption to Ca homeostasis in sheep</b>	133
	Nina Mrochen, Mirja Wilkens and B. Schröder – Hannover	
<b>107.</b>	<b>Transepithelial potential differences affect transport of short-chain fatty acids (SCFA) across rumen epithelium</b>	134
	R. Rackwitz, J. R. Aschenbach, Petra Philipp and G. Gäbel – Leipzig	
<b>108.</b>	<b>Effects of different carbohydrate sources on intestinal glucose absorption in calves</b>	135
	Stefanie Klinger, B. Noci, Kerstin Müller, Manuela Kuhn, Meike Zurich, G. Breves – Hannover/Berlin	
<b>109.</b>	<b>Effects of increasing zinc concentrations on intestinal epithelial barrier properties and viability in two cell culture models</b>	136
	Ulrike Lodemann, H. Martens, R. Einspanier, Angelika Bondzio – Berlin	
<b>110.</b>	<b>Functional characterisation of calcium and phosphate transport across the equine intestine</b>	137
	Anja Cehak, F. Geburek, K. Feige, B. Schröder, G. Breves – Hannover	
<b>111.</b>	<b>Developmental influences on the expression of MCT1 in the rumen, reticulum and omasum of neonatal calves</b>	138
	F. Taifour, J. Steinhoff, Helga Pfannkuche, H. M. Hammon and G. Gäbel – Leipzig/Dummerstorf	
<b>112.</b>	<b>HCO<sub>3</sub><sup>-</sup> transport in sheep omasum: Effect of SCFA</b>	139
	Driton Caushi, Katharina Wolf, Meike Beisele, H. Martens – Berlin	
<b>113.</b>	<b>Heat Shock Proteins are modulating Na transport in sheep rumen</b>	140
	I. Rabbani, U. Tietjen and H. Martens – Berlin	

### **Communications of the Committee for Requirement Standards of the Society of Nutrition Physiology**

<b>New Equations for Predicting Metabolisable Energy of Compound Feeds for Ruminants</b>	143-146
<b>List of Authors</b>	147-156
